

Client Profile Edit.

This is the page to edit the basic details of the clients. On selecting this option, a search screen will popup which will show all the list of clients enrolled in the application. In the top there is a search facility by

- Search Class – by typing the class name in this all the clients enrolled for that class will be filtered out.
- Search Client – by typing the client name in this will filter out with those clients having this alphabets in their names.
- By clicking – The client name can be directly selected by clicking on their name also.

After selecting the client, Edit Profile page will be loaded with the client details. The Credit card information section is the place where the client can save their credit card number, expiry Month/year and CVV and can use later for payment purposes.
