

1 Flash Changes

Flash changes give the capability to make quick changes to the schedules in less number of clicks. All sessions in the selected date range will be displayed. Date range is defaulted to current day.

The data range can be changed by clicking on the date range filter provided at the top. The date will be defaulted to **Today**. The filter can be changed by clicking on other date range filters provided.

Sessions are grouped by class. Number of sessions in the selected date range will be shown on the right side in **Red** circle. The sessions inside a class can be viewed by clicking on the class bar.
